RULE YOUR SPACE

AJAX STARTER PACKAGES

Choose the package that fits your property, security needs, and budget, with the flexibility to easily expand as your needs grow.

- **One Connected System**
  Manage intrusion protection, fire detection, water leaks, cameras, and automation through one platform.
- **Real-Time Notifications**
  Stay informed about alarms, system events, and changes in security status. Fast, reliable, and simple to use.
- **Expandable Protection**
  Start with essential devices and add coverage over time; system supports up to 200 compatible Ajax devices.
- **Mobile Device Control**
  Arm, disarm, and check your system wherever you have a connection. All with no monthly app fees.
- **Multiple Property Management**
  Keep an eye on your home, business, and other properties from one account. No switching needed.
- **Smart Automation**
  Schedule security modes and control compatible lights, appliances, gates, and other equipment.
